

Azalea Health Ambulatory EHR

An Easy-to-Use, Certified and
Cloud-Based EHR for Your Practice.

Changing the way health IT platforms connect healthcare providers and patients, Azalea delivers an ONC-certified solution. Quick to deploy and easy to use, Azalea solutions ensure better care coordination and communication – **at a 37% more efficient rate** compared to other leading vendors.

Azalea Practice Management

Our PM solution streamlines workflows by getting patients on your schedule more quickly and your claims out faster.

- Easily move appointments with a drag-and-drop scheduler
- Verify patient eligibility, individually and in unlimited batches
- Capture patient financial information and store on file for future use, including setting up payment schedules
- Collect accurate payments at time of service with integrated Patient Responsibility Estimator and merchant services
- Easily process split claim bills just by checking a box
- Submit clean claims the first time utilizing built-in claim scrubbing and code check

* Ambulatory EHR Value Study, Hobson & Co.

Azalea Electronic Medical Record

Our EMR and PM solutions are seamlessly integrated, reducing clicks and making viewing and capturing clinical data easy.

- Capture clinical data easily with low click, one-page SOAP note
- Collaborative charting allows multiple team members to edit a patient chart at the same time
- Customizable templates including integrated ePrescribing and EPCS
- HIPAA-Compliant Direct Messaging

50% reduction in cost of managing EHR infrastructure*
